

**NEW
PRODUCT**

Model : HL20

CE RoHS IP57

The Ferei HL20 high powered LED headlamp is one of the brightest, toughest and most intelligent headlamps available today. It features a unique proprietary microcontroller that allows for near infinite brightness adjustment with the push of a button. Furthermore, it has excellent runtimes on various battery configurations, a compartmentalized power driver/switch for added safety, and is also extremely lightweight. The Ferei HL20 is the ideal outdoorsman tool suitable for camping, hiking, caving, fishing and numerous night-time activities.

Specifications

CREE XM-L T6 LED
Max Output :800 Lumens
Runtime: 1-4 Hours
Battery: 1*18650/BP28/BP4836
II-ion battery
Distance: 300 M
Head diameter: 32mm
Weigh:150g

Switch

T6 LED

Model : HL08 AA

Patent No.2008 3025 3577.9

Special switch and light source
power supply separated with light body to make the weight
less, better for wear on head
seperated cable controlled switch to control the output easily
max and mid output, together with four kinds of blinkings
Low power warning by blinking
Four kinds of power supply:
1 * 18650 Lithium battery
2 * 18650 battery pack BP28
4 * 18650 battery pack BP4836
3 * AA alkaline battery

CE RoHS IP57

Specifications

LED: 1* CREE-Q5 3WATT
Max Output: 220 Lumens
Runtime: 2.5 hours
Battery: 3* AA battery
Distance: 180 M
Head diameter: 32mm
Weight: 148.2g(excluding battery)

HEADLAMP RECHARGEABLE VERSION

Model: HL08

Patent No.2008 3025 3577.9

Specifications

LED: 1*CREE-Q5
Max Output: 220 Lumen
Runtime: 2.5 hours
Battery: 1* 18650 li-ion rechargeable battery
Recharge time:5 hours
Distance: 180 M
Head diameter: 32mm
Weight: 148.2g(excluding accessories)

Optional extras

Battery belt pack BP28
Battery belt pack BP4836

Runtime: 5 hours/10hours
Power supply: BP28/BP4836
Recharge time:8hours/16hours
